

LD-N2 cement wall coating putty spray machine

LD-N2 cement wall coating putty spray machine is a small-size, wet-mixed mortar transfer pump, which is suitable for materials less than 3mm, such as mortar that can be pumped, putty, paint, coating materials and things alike. LD-N2 can be your spraying machine if it is equipped with our small-size air compressor, spray gun or relative accessories.

LD-N2 is composed of many independent components. The volume and handy design facilitate the transportation of the machine.

Specification:

Model	LD-N2
Voltage	380V 3 Phases
Motor power	4kw
Conveying capacity	3-60L/min
Conveying pressure	30bar
Conveying distance	0-100m
Conveying height	3-15m
Spraying pipe	100m
Max. aggregate	3mm
Stir manner	Manual
Net weight	165kg
Gross weight	245kg
Packaging	steel box, 125×64×140mm ³

1. 4 kw motor & gear box
2. storage hopper
3. pump core

4. rack
5. electric control box
6. air pump

Overview of Electricity Box

1.master switch of rotation direction

2. hand/autom, motor selector

3.wire/air control

4. hand/autom, air pump selector

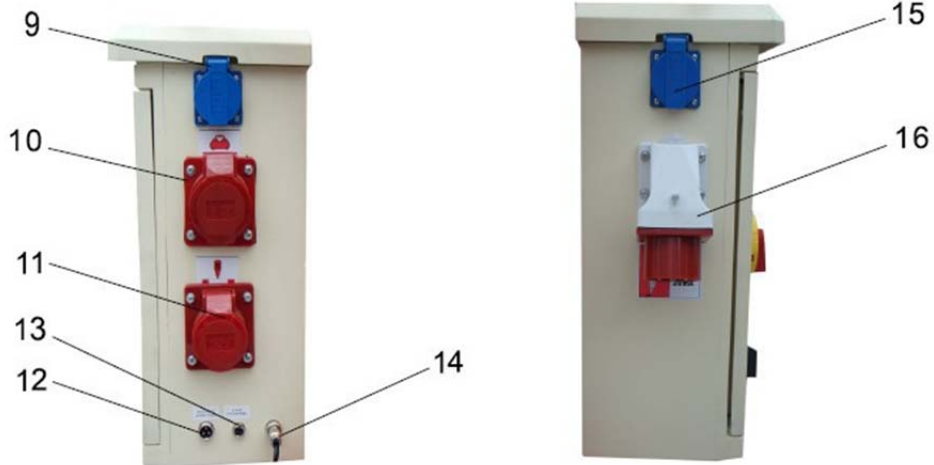

5.indicator of pressure protection

6.indicator of motor rotation/ wiring error

7.indicator of material circulation

8.electric box lock

Overview of Electricity Box

9.220V socket

10. air pump socket

11. motor socket

12. pressure sensor socket

13. wire control socket

14. air pump pressure control

15. 220V socket

16. power interface

LD-N2 cement wall coating putty spray machine accessory

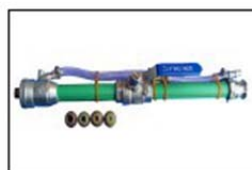

No	Item	Qty.	Unit	Remark
1	feeding auger	1	pcs	
2	Rotor, stator (pump core)	1	set	
3	connecting piece of rotor and	1	set	
4	Guniting hose Φ 44	3	pcs	5 m/pcs
5	Low pressure spray gun	1	pcs	
6	High pressure spray gun	1	pcs	Nozzle(12mm, 14mm)
7	instruction book	1	cop	
8	16A Five-star plug-in	1	pcs	
9	screw and nut	8	pcs	
10	Rotor, stator flat wrench	1	pcs	
11	Circular tube	1	pcs	
12	sunlamp plug	1	pcs	
13	Switch box lock	1	pcs	
14	Air tube	1	pcs	
15	sponge ball	3	pcs	
16	Quick joint sealing ring	2	pcs	
17	5A Fuse wire	2	pcs
